

Office of Village Manager

MEMORANDUM

To: Honorable Mayor and Members of the Village Council
From: Susan A. Owens., Acting Village Manager *SAO*
CC: Village Staff
Date: January 6, 2023
Re: **Bi-Monthly Report and Update (For Period Ending Friday January 6, 2023)**

Honorable Mayor and Members of the Village Council:

In the interest of keeping the Council and the public informed of administrative matters on a regular basis, I am providing this report for your review and consideration:

Administration

Village Manager's Office

The Chamber of Commerce is hosting its Annual Installation Dinner on January 20, 2023. As in previous years, the Village will be sponsoring this event. Attached to this report is more information on the event.

Starting Monday, January 9, 2023, and ending on Monday, January 23, 2023, the Utilities Division will be performing several water maintenance procedures in an effort to provide safe drinking water to the residents of Indiantown. Attached to this report is more information on the maintenance procedures and what they will entail.

Village Schedule

A schedule of upcoming events is included below:

- The Village's next Regular Council Meeting is scheduled for Thursday, January 12, 2023, at 6:30 PM. The meeting will be held in the Village's Council Chambers at Village Hall in Suite C.

Members of the public are encouraged to attend meetings. For a closer look at upcoming events, or for further information on meetings and attendance, please visit our website at <http://www.indiantownfl.gov> or contact the Deputy Village Clerk, Daren Hamberger, at dhamberger@indiantownfl.gov.

Important Information

Village Clerk's Office

The Village Clerk, Susan Owens, has several items to highlight.

Notice: Water Customers of the Village of Indiantown Service Area

In accordance with efforts to provide safe drinking water to the residents of Indiantown, we will be performing several water maintenance procedures during the **TWO-WEEK PERIOD STARTING on MONDAY JANUARY 9TH, 2023 and ENDING on MONDAY, JANUARY 23RD, 2023.** During this period, staff will be switching our water disinfection method from one that uses chloramines, in the form of a disinfectant made from chlorine and ammonia, to one that uses free chlorine.

Free chlorine is a stronger germ-killer, but sometimes leaves a chlorine taste or smell in tap water. This temporary switch is a standard procedure to ensure potentially harmful microbes do not develop in the water system.

Free chlorine acts as a lethal agent against most stubborn types of bacteria and viruses. While it is generally not harmful to humans or pets, however, **please note it can harm tropical fish.** Switching to its use from time to time prevents these organisms from building a resistance to the chloramines we normally use.

These temporary conditions will not adversely affect your health. **If you are on kidney dialysis, however, you should consult your physician for special instructions.** If you have tropical fish or aquatic animals, you should contact your local tropical fish store for advice and take appropriate action to ensure that you have properly treated the water before adding it to your aquarium.

Please note, Village Utility personnel will be flushing hydrants during this time, which may cause water to discolor and become cloudy. This is a temporary condition and should not last more than a few hours. Some people may opt to temporarily switch to an alternative water source, such as bottled water, due to taste. Boiling water is one way to reduce chlorine taste and smell during this period. Additionally, filling a container with tap water will allow it to ventilate.

For further information or questions, please contact the Village of Indiantown Water-Wastewater Utility Department at 772-597-2121 and ask for Jaime Andres or Pat Nolan.

Sincerely,

A handwritten signature in black ink, appearing to read "Pat Nolan", is written over a horizontal line.

WATER - WASTE WATER UTILITIES

EST. 2020

Aviso: Clientes de Agua del Área de Servicio del Pueblo de Indiantown

De acuerdo con los esfuerzos para proporcionar agua potable a los residentes de Indiantown, realizaremos varios procedimientos de mantenimiento del agua durante el **PERIODO DE DOS SEMANAS QUE COMIENZA EL LUNES 9 DE ENERO DE 2023 Y TERMINA EL LUNES 23 DE ENERO DE 2023**. Durante este período, el personal cambiará nuestro método de desinfección de agua de uno que usa cloraminas, en forma de desinfectante hecho de cloro y amoníaco, a uno que usa cloro libre.

El cloro libre es un asesino de gérmenes más fuerte, pero a veces deja un sabor u olor a cloro en el agua del grifo. Este cambio temporal es un procedimiento estándar para garantizar que no se desarrollen microbios potencialmente dañinos en el sistema de agua.

El cloro libre actúa como un agente letal contra la mayoría de los tipos rebeldes de bacterias y virus. Si bien generalmente no es dañino para los humanos o las mascotas, **tenga en cuenta que puede dañar a los peces tropicales**. Cambiar a su uso de vez en cuando evita que estos organismos desarrollen una resistencia a las cloraminas que usamos normalmente.

Estas condiciones temporales no afectarán negativamente su salud. **Sin embargo, si está en diálisis renal, debe consultar a su médico para obtener instrucciones especiales**. Si tiene peces tropicales o animales acuáticos, debe comunicarse con su tienda local de peces tropicales para obtener asesoramiento y tomar las medidas adecuadas para asegurarse de haber tratado adecuadamente el agua antes de agregarla a su acuario.

Tenga en cuenta que el personal del Servicio Público del Pueblo lavará los hidrantes durante este tiempo, lo que puede hacer que el agua se decolore y se enturbie. Esta es una condición temporal y no debería durar más de unas pocas horas. Algunas personas pueden optar por cambiar temporalmente a una fuente de agua alternativa, como agua embotellada, debido al sabor. Hervir el agua es una forma de reducir el sabor y el olor a cloro durante este período. Además, llenar un recipiente con agua de la llave permitirá que se ventile.

Para obtener más información o preguntas, comuníquese con el Departamento de Servicios Públicos de Agua y Aguas Residuales del Pueblo de Indiantown al 772-597-2121 y pida por Jaime Andres o Pat Nolan.

Atentamente,

Pat Nolan
