

Village Elections

All municipal (Village-Level) elections shall be conducted on a non-partisan basis without designation of political party affiliation. Any person who is a resident of the village, is qualified to vote by the State of Florida and who is registered with the Martin County Supervisor of Elections' Office may vote in any municipal election. Polls are open 7:00 a.m. to 7:00 p.m.

Regular General Elections:

Regular municipal general elections are held 10 weeks before the date of the November general election on even-numbered years, unless this date is required to be changed to a date concurrent with any countywide or statewide election. In 2020, two (2) council seats were up for election. In 2022, the other three (3) council seats were up. The number of seats up for election will then alternate bi-annually following this schedule.
